Independence Day

AUGUST NEWSLETTER

Jai Hind!

HAPPY INDEPENDENCE DAY

Gopalan National School's Independence Day celebrations showcased proud moments of unity, freedom, sacrifice, and strength, instilling patriotism while honouring the nation's journey and inspiring students to uphold its values.

HAPPY INDEPENDENCE DAY

HAPPY INDEPENDENCE DAY

Prep1 students celebrated Independence Day with pride, dressed in tricolor. The themed corridor set the mood as they enjoyed tricolor snacks, attended a special assembly, did earbud printing on national symbols, learned about leaders and symbols, and took home tricolour hats.

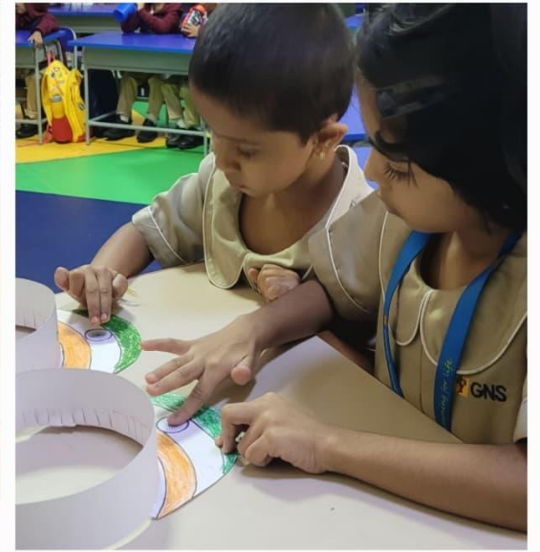

002

003

004

HAPPY INDEPENDENCE DAY

Students of Grade 1 and 2 celebrated Independence Day with great pride and joy. They expressed their love for the nation by making beautiful tricolour kites, symbolising freedom and unity. As the kites fly high in the sky, the children felt proud to be Indians to reach for the sky like the kites, cherishing the values of freedom, respect, and togetherness. It was a meaningful day that filled every heart with patriotism and happiness.

Grade 1 students commemorated Kargil Vijay Diwas with pride and gratitude, honouring the bravery of our Indian soldiers. As a tribute, the children crafted army caps decorated with symbols of love and respect for our protectors. Through this creative activity, students learned about the courage and sacrifices of the Indian Army, fostering a sense of patriotism and appreciation for our nation's heroes.

CIVIC ENGAGEMENT

**Empowering
young minds!
Grade 10 students

NATIONAL SPORTS DAY

National Sports Day, celebrated on August 29th, marks the birth anniversary of Major Dhyan Chand, one of the greatest field hockey players of all time. The day highlights the importance of sports and physical fitness while honouring his remarkable legacy in Indian hockey. Our school celebrated the occasion with inspiring speeches, yoga sessions, and Taekwondo drills that motivated everyone to embrace the spirit of sportsmanship.

SPECIAL ASSEMBLY

Class 7F presented an assembly on 'Lateral Inversion' under the guidance of Sangeetha N. They explained the concept through engaging activities and highlighted practical applications, such as ambulance signage. The session concluded with a skit, showcasing everyday scientific principles in a fun way.

SPECIAL ASSEMBLY

On 18th August, Class 9A's assembly on "Active Citizenship" featured prayer, thought, skit, TED-style talk, and vote of thanks, powerfully highlighting civic responsibility's role in shaping national growth and progress.

On 25th August, Class 9B presented an inspiring assembly on "Importance of Gratitude in Everyday Life," featuring prayer, thought, news, skit, speech, TED-style talk, and anthem, beautifully showcasing gratitude's transformative power.

SPECIAL ASSEMBLY

The Class XB assembly on 14th July 2025, themed “Volunteering and Giving Back,” featured inspiring speeches, a thought for the day, and a powerful skit, motivating students to serve selflessly, foster empathy, and strengthen communities through meaningful contributions.

On 21st July 2025, Grade 10C's assembly, “Learning to Say No and Setting Boundaries,” featured a serene prayer, impactful dance drama, interactive quiz, and the Principal's inspiring message, empowering students to assert themselves and set healthy, confident boundaries.

SPECIAL ASSEMBLY

Grade 10D's assembly, "Impact of Social Justice Movements on Society," featured a serene prayer, a powerful skit showcasing struggles and triumphs, and the Principal's inspiring address, highlighting collective action's role in fostering fairness, inclusion, and meaningful societal change.

Class 10E conducted an engaging assembly on Peer Pressure, stressing the value of staying true to one's principles, resisting negative influence, choosing supportive friends, and making independent, right choices for a positive future.

Grade 1 and 2 students joyfully celebrated International Tiger Day with creativity and enthusiasm. To raise awareness about tiger conservation, children engaged in a fun craft activity, making adorable tiger hangouts using paints, googly eyes, and ice cream sticks. The activity not only encouraged artistic expression but also helped students understand the importance of protecting wildlife, especially our national animal—the tiger. The day was filled with excitement, learning, and vibrant orange and black stripes! 🐅

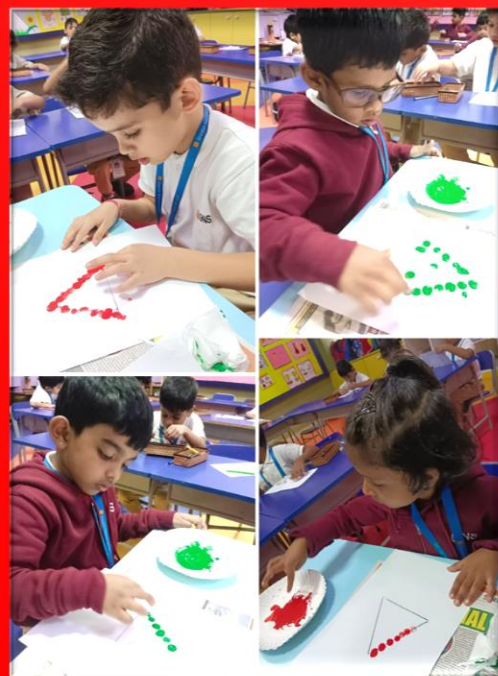

ACTIVITIES

PREPERATORY 1

Prep 1 students enjoyed a fun shape activity. They tore small bits of paper and carefully pasted them on a rectangle outline. This hands-on activity helped them recognize the rectangle shape while improving creativity and fine motor skills.

Prep 1 students did a fingerprint activity on a triangle outline using different colours. This engaging activity enhanced their fine motor skills and reinforced the concept of shapes through art in a fun and creative way.

Prep 1 students did a sponge dabbing activity using grey colour inside an elephant cutout, reinforcing the letter 'E' for Elephant while enhancing creativity and fine motor skills.

Kannada Alphabet Tracing with Rava Kids help learn Kannada alphabets (ಅಕ್ಷರಗಳು) by tracing letters written in rava (ರವೆ/semolina) on a tray. This tactile activity helps with letter recognition through touch and play.

K A N N A D A A C T I V I T Y

Kannada Letter Recognition & Ordering Children learn Kannada letters using flashcards with pictures. They match pictures to letters (ಅ, ಆ, ಇ...) and arrange in alphabetical order (ಅಕಾರಾದಿ). Boosts letter recognition and sequencing in Kannada.

Happy Janmashtami

On the special day Playgroup children did a group activity where they have decorated Krishna's pot with ear bud dot dipped in paint and used cotton to enhance the beauty of the pot. It was a fun filled activity for the little ones.

Raksha Bandhan

Raksha Bandhan was a joyful and heartwarming celebration for our Prep 2 students. The little ones enthusiastically crafted vibrant rakhis using colorful ribbons and glitter sheets. With wide smiles and cheerful giggles, they tied these handmade rakhis on each other's wrists, embracing the spirit of friendship and togetherness. The day was filled with love, laughter, and the sweet joy of celebrating a beautiful bond.

Students of Grade 1 and 2 joyfully celebrated the bond of love and protection on the occasion of Raksha Bandhan. The children made beautiful handmade rakhis with creativity and excitement. They then tied the rakhis to their classmates, sharing smiles, affection, and the true spirit of the festival. The celebration helped them understand the values of love, care, friendship, and togetherness while making the day memorable and meaningful.

CLASS ACTIVITY-GEOGRAPHY (CLASS-7)

Students were asked to research and gather interesting facts about Antarctica in order to deepen their knowledge and understanding of the continent.

CLASS ACTIVITY-GEOGRAPHY (CLASS-7)

FACTS ABOUT Antarctica

1

Blood falls - A frozen waterfall with a reddish-brown colour due to iron oxide, it gives a blood like look

2

Active Volcanoes - Antarctica has several active volcanoes including Mt. Erebus. They have been erupting from 1972

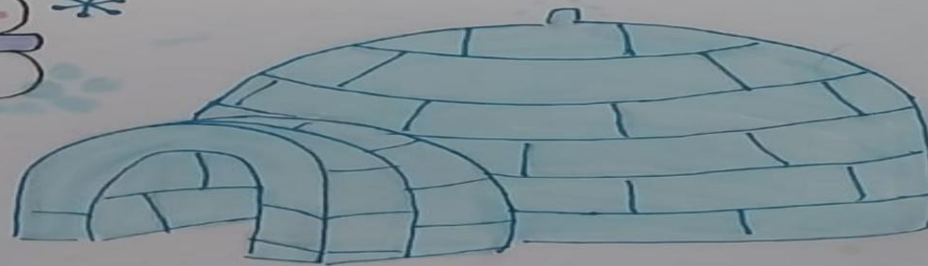

3

Weddel seals - They can sleep underwater with only half their brain, staying alert for predators underwater.

4

Temperature - The coldest temperature recorded was -128.6°F [-89.2°C], the lowest temperature on earth

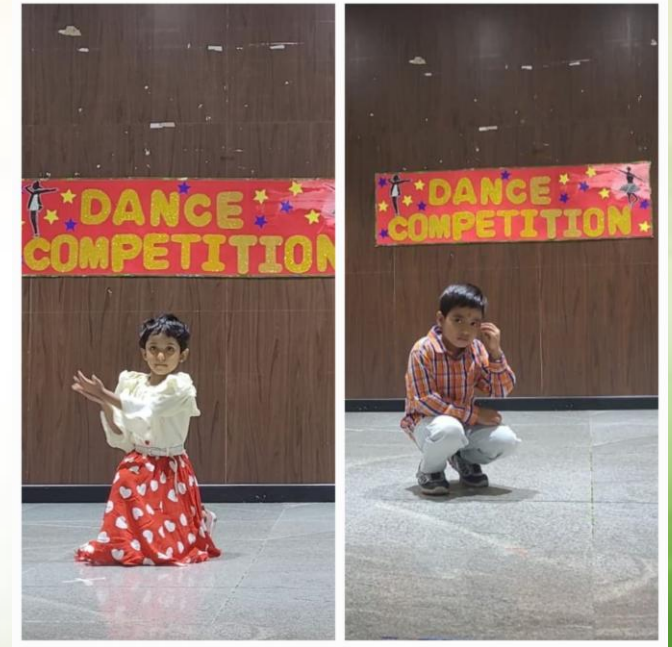

CLASS ACTIVITY-HISTORY (CLASS-7)

Islamic art traditionally avoids depicting human and animal figures, especially in religious contexts, due to concerns over idolatry. As a result, artists developed geometric patterns, arabesques, and calligraphy as main artistic expressions. These abstract designs allowed for elaborate decoration without violating religious principles.

Dance Competition

PREPARATORY 1

On 22nd August 2025, Prep 1 and Prep 2 students participated in a delightful dance competition. Dressed in colourful costumes, they performed lively dances with enthusiasm and confidence. Their graceful steps and bright smiles made the event joyful, memorable, and entertaining.

PREPARATORY 2

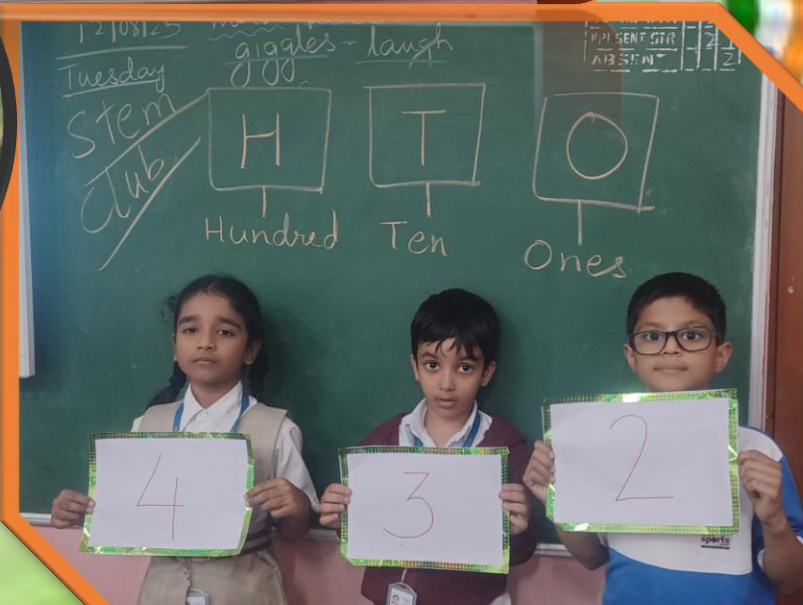

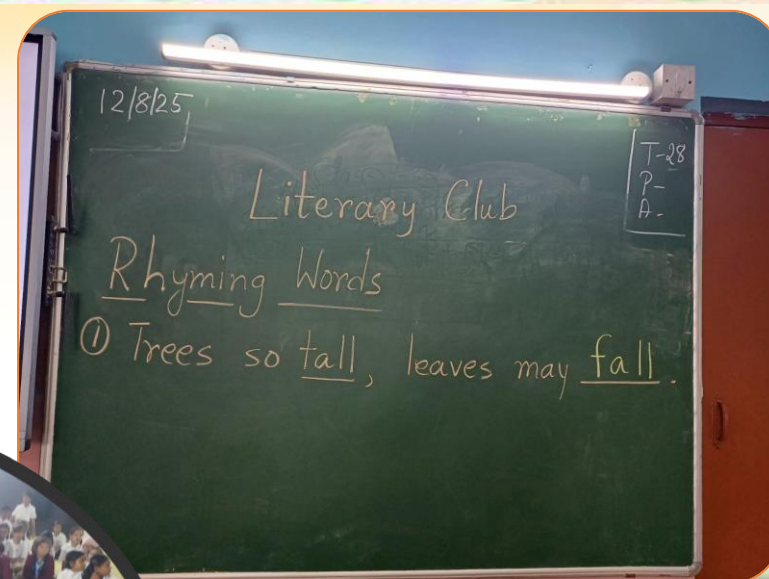

CLUBS AND ACTIVITIES

**Learning with
a Difference**

Grade 1 and 2 students experienced learning with a difference through a variety of engaging activities. They explored concepts like place value and digraphs, enjoyed a refreshing nature walk, and expressed creativity through art and craft. During club activities, the children participated in fun and skill-building tasks that nurtured their imagination and teamwork. These experiences made learning joyful, meaningful, and memorable.

CLAY MODELLING COMPETITION

MOLD MAGIC

Our Grade 1 students impressed everyone with their beautiful clay models of flowers and fruits showcasing creativity, color, and imagination. 🌸

2D clay creativity

Our Grade 2 students amazed us with their wonderful clay models on water animals and scenic views, bringing life and beauty to their creations. 🐟 🐡 🌳

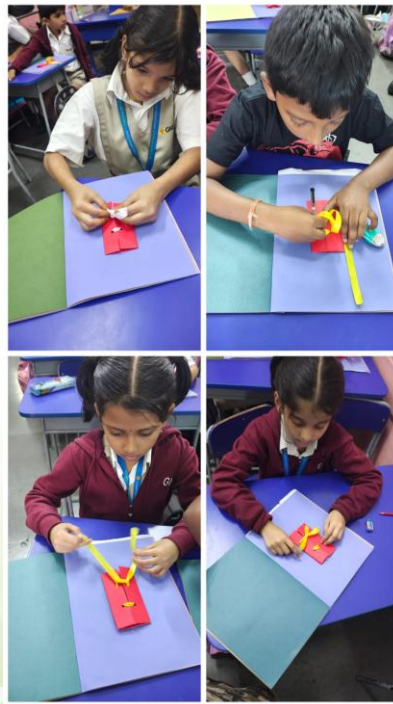

Your hard work, creativity, and dedication have made us all very proud. Keep nurturing your imagination and continue to shine bright in all that you do.

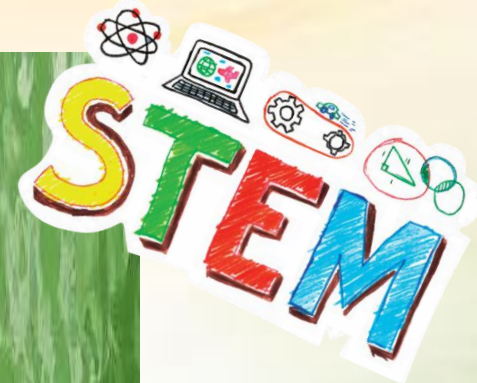

Well done, little champions! 🙌 ✨

Grade 1 and 2 students enthusiastically participated in a SUPW (Socially Useful Productive Work) class focused on an important life skill – Tying shoelaces. With patience and practice, the young learners followed step-by-step instructions to master the art of tying their own shoes. This fun and hands-on activity helped build their fine motor skills, independence, and self-confidence, making it a valuable and enjoyable learning experience! 👟 🎀

CLUB ACTIVITIES

ENVIRONMENT

Environment refers to the surroundings or conditions in which a person, animal, or plant lives or operates.

Everything on Earth is part of the environment: living things and non-living things.

The main functions of the environment are: provides the supply of resources, sustains life, assimilates waste and enhance the quality of life.

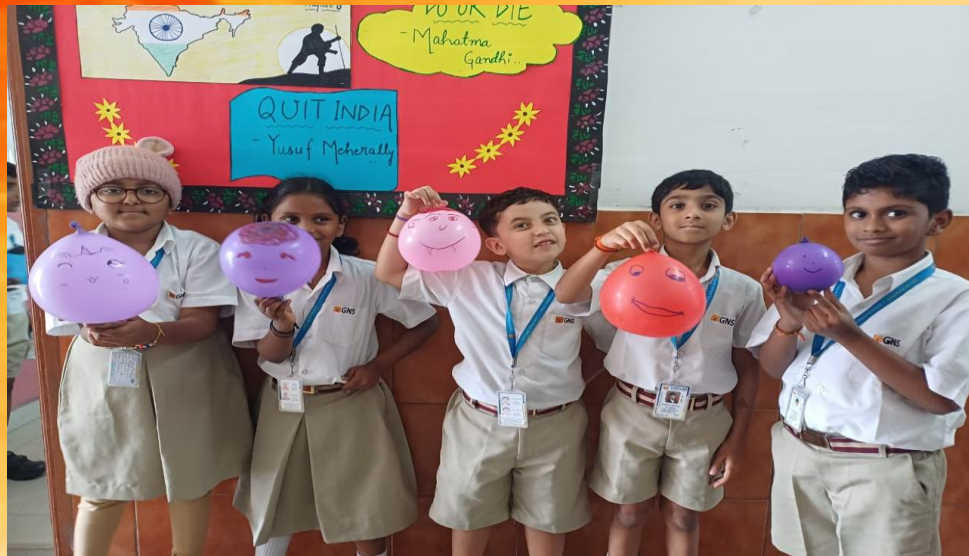

Some of the major environmental problems that we are facing today are: global warming, ozone depletion, air and water pollution and destruction of forests.

STEM CLUB GRADE 3

In this activity, we observed how placing a coin inside a balloon causes it to “dance” and create sounds. When we spin or shake the balloon, the coin continues to move due to inertia. As it hits the inside of the balloon, it makes a noise and causes the balloon to wobble. This shows us how movement, weight, and vibrations can change the way objects behave.

STEM CLUB GRADE 4

By making and using a wind vane, students discovered how to measure the direction of the wind. They learned that the arrow of the vane points to the direction the wind is coming from, and that wind can change throughout the day.

PUPPETRY CLUB GRADE 3

Puppetry is a form of theatre or performance that involves the manipulation of puppets - inanimate objects, often resembling some type of human or animal figure, that are animated or manipulated by a human called a puppeteer. Such a performance is also known as a puppet production. The students of grade 3 created their own stories with different puppets and entertained the class. They also enjoyed the art of making puppets. Puppets allow children to role-play different scenarios and take on various perspectives, much in the same way any theatre experience can.

PUPPETRY CLUB GRADE 4

Class 4 students enthusiastically explored the art of puppetry, a theatrical form in which puppeteers animate puppets. They created their own puppets, wrote imaginative stories, and entertained classmates through engaging performances. The activity fostered creativity, role-play, and perspective-taking, while also giving students immense joy in both crafting puppets and presenting their storytelling skills on stage.

HOME SCIENCE CLUB GRADE 3

To share the bond of happiness Grade 3 children made beautiful friendship band. This activity helped them to enhance creativity and help them to develop healthy relationships.

HOME SCIENCE CLUB GRADE 4

Home Science - In friendship band making activity students had a fulfilled day with learning outcome of:

**Fostering friendship and bonding, encourages teamwork, communication, and collaboration among participants.*

**Develops fine motor skills: Improves hand-eye coordination, dexterity, and creativity through crafting and designing.*

**Promotes creativity and self-expression: Allows individuals to express their personal style and creativity through design and color choices.*

ENVIRONMENTAL CLUB GRADE 3

Paryavaran Ganapathi (Seed Ganesha) Environmental Club Activity- Grade 3 students had a lot of learning and fun filled experiences in making Ganesha idols with mud, maida, turmeric powder, leaves and flowers. It gave them hands-on experience of crafting idols with eco friendly materials. This activity helped them to celebrate festivals in an eco friendly way.

ENVIRONMENTAL CLUB GRADE 4

As part of promoting eco-friendly celebrations, our club organized a Seed Ganesha activity where students crafted Ganesha idols using clay and plant seeds. After immersion, these idols sprout into plants, symbolizing growth and sustainability. The event encouraged creativity, environmental awareness, and responsible celebration. This meaningful activity not only highlighted the importance of protecting nature but also encouraged students to celebrate festivals in an eco-conscious manner.

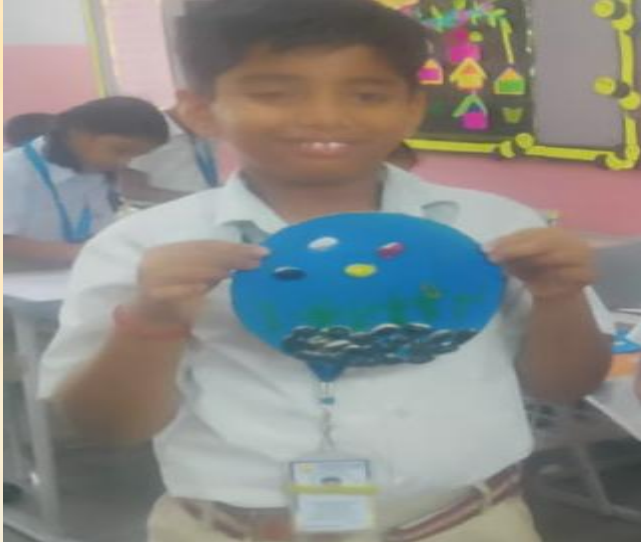

ART & CRAFT CLUB GRADE 3

Grade 3 Art and craft club activity - pistachio shell fish aquarium. Students of grade 3 developed fine motor and special awareness skills to create their aquarium craft using a pistachio shell. Understood the concept of recycling and its impact on the environment.

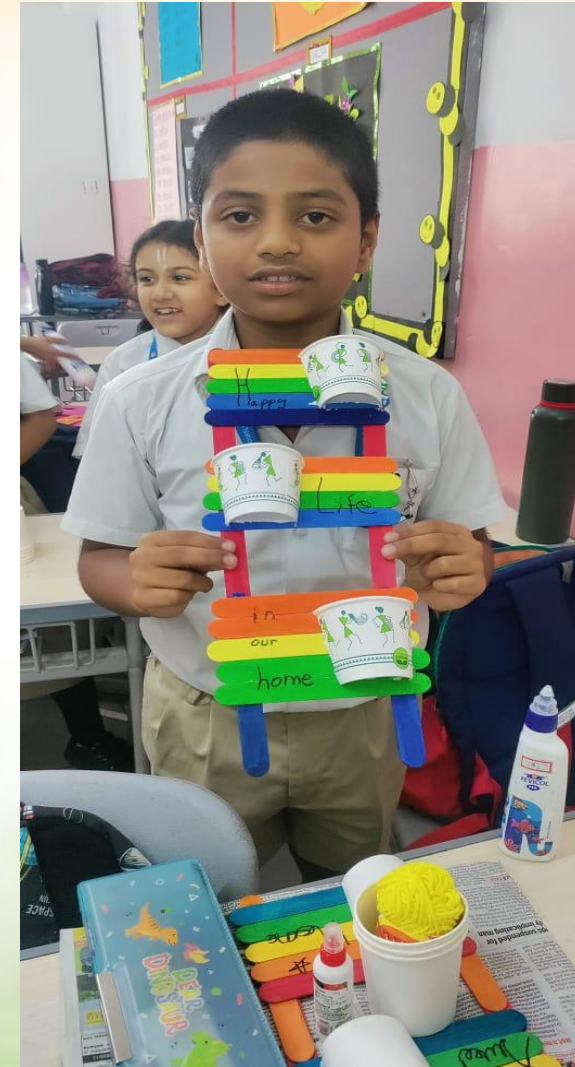

ART & CRAFT CLUB GRADE 4

Grade 4 art & craft club activity -This craft activity allows children to express their creativity, repurpose materials, and add a touch of handcrafted charm to their living spaces....

CLUB ACTIVITY

Class 8 students showcased creativity in the Best Out of Waste activity, turning discarded materials into beautiful, useful items. The event promoted recycling, artistic expression, and environmental awareness among students.

The Grade 1 and 2 students went on an exciting field trip to the Bengaluru Aquarium. The children were thrilled to see a variety of colorful fish and water animals. They observed and learned about different aquatic species, their shapes, sizes, and habitats. It was a joyful day filled with curiosity, learning, and fun moments as the students enjoyed exploring the underwater world. The trip gave them a wonderful experience beyond the classroom, making learning truly enjoyable.

FIELD TRIP GRADE 3

FIELD TRIP GRADE 4

FIELD TRIP

On 7th Aug 2025, our Grade 10 students visited Country Side Old Age Home, Borewell Road, Nallurahalli, spreading joy and empathy through gifts, interactions, and learning the importance of respect, care, and compassion.

BAGLESS DAY ACTIVITY - SCIENCE GRADE 5

Dissection of Bisexual flower 🌸 **activity** Children enjoyed dissecting a bisexual flower, removing petals, and spotting the stamens and pistil. They were excited to discover that both male and female parts are present in the same flower, making it special for pollination.

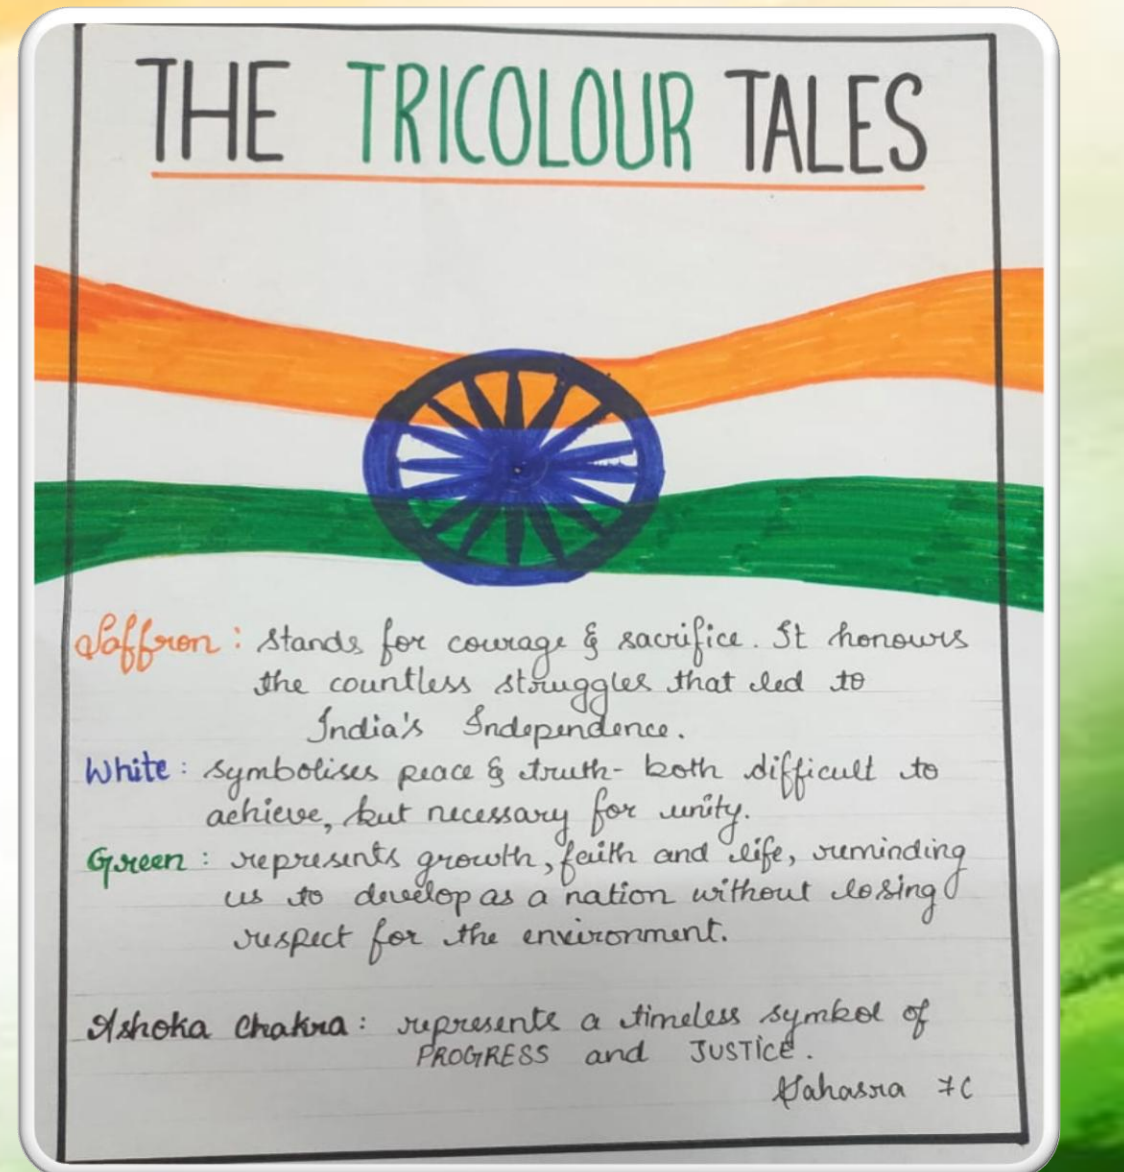

BAGLESS DAY ACTIVITY - MATH

Grade 6: Topic: Fraction picnic

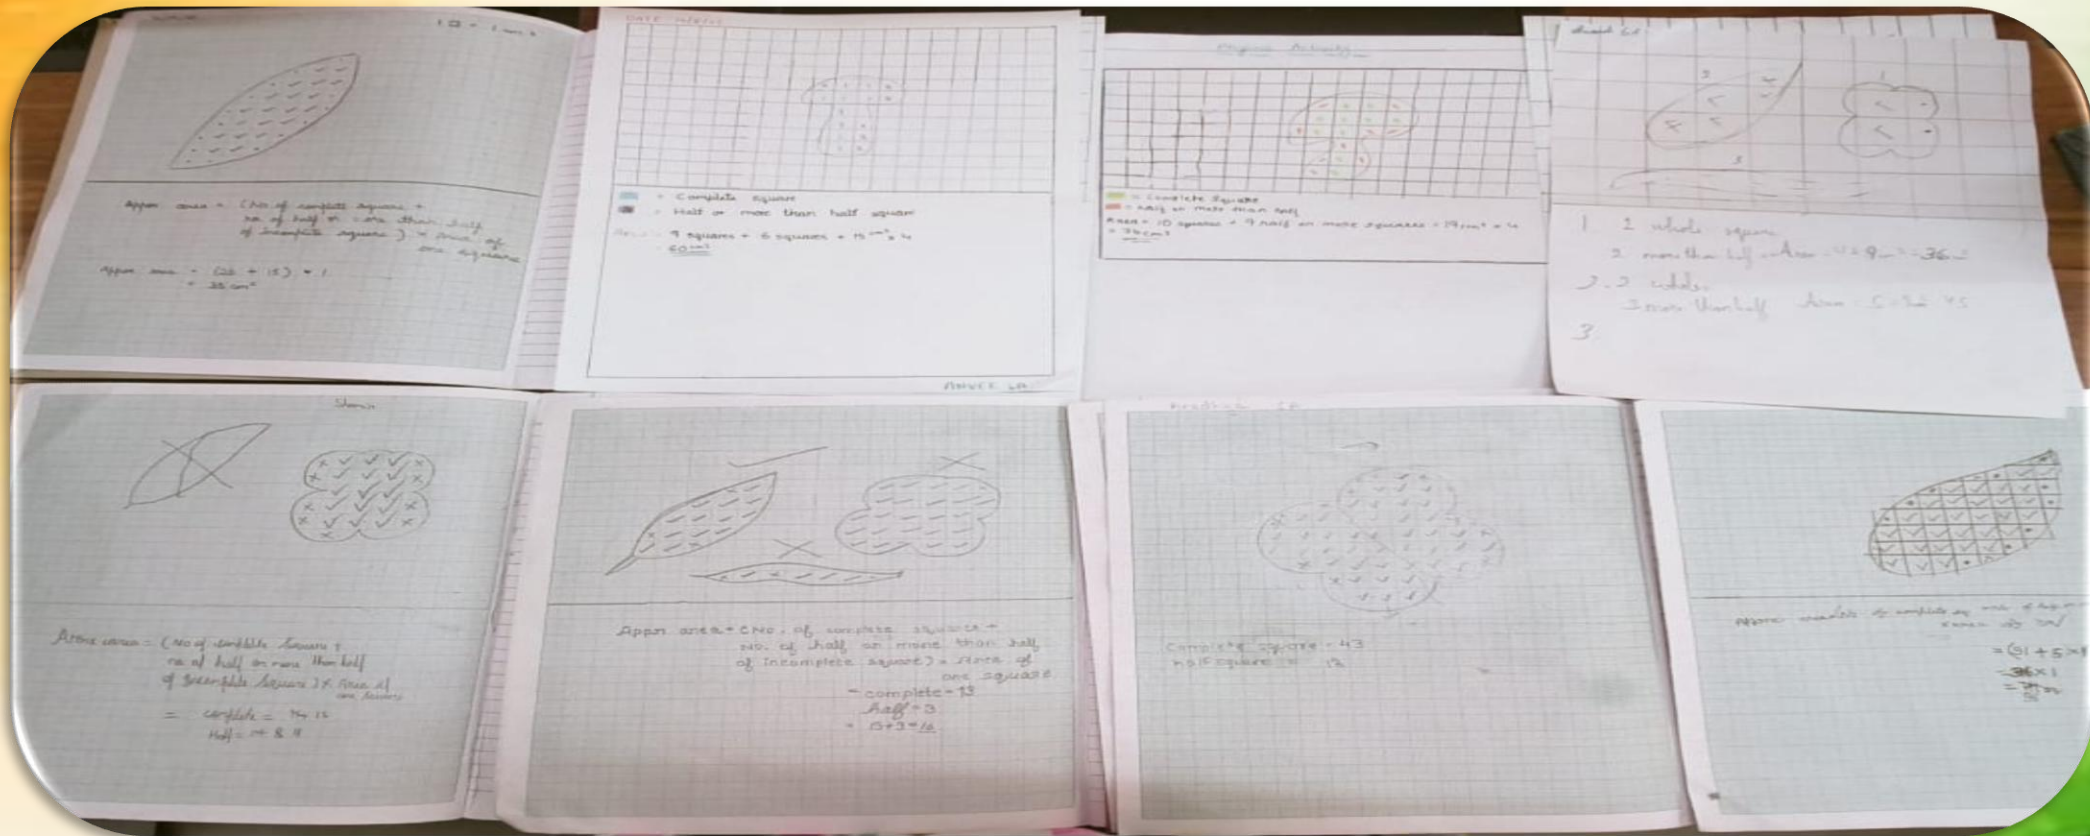

BAGLESS DAY ACTIVITY-HISTORY (CLASS-7)

The Tri-Colour Tales is a tribute to the enduring spirit, unity, and diversity of India, told through stories inspired by the three colours of the Indian national flag — saffron, white, and green. Each colour is more than a hue; it carries deep meaning and reflects the values that bind the nation together.

BAGLESS DAY ACTIVITY -BIOLOGY

Grade 7: In a hands-on activity, students measured the area of irregular shapes using various methods. They used graph paper to trace and count squares, or divided the shapes into simpler, calculable parts. This practical exercise helped them understand the concept of area beyond simple geometric formulas.

BAGLESS DAY ACTIVITY - GEOGRAPHY (CLASS-7)

Measure and Scale Real to Representation

Students were instructed to measure the dimensions of the corridor, their classroom, and the greenboard. They were then asked to convert these actual measurements using a given scale and represent the scaled-down drawings accurately on an A4 size sheet.

Scale (Bagless Day Activity)			
Name	Ground	Map	Picture
Green Board Scale - 1:100	L = 100 cm W = 50 cm	L = 10 cm W = 5 cm	
Class Room Scale - 1:1000	L = 330 cm W = 220 cm	L = 3.3 cm W = 2.2 cm	
Corridor Scale - 1:100	L = 1000 cm W = 120 cm	L = 10 cm W = 1.2 cm	

BAGLESS DAY ACTIVITY - MATH

Grade 7: Angle adventures on parallel lines To understand the different types of angles formed when a transversal intersects two parallel lines, and to identify their properties.

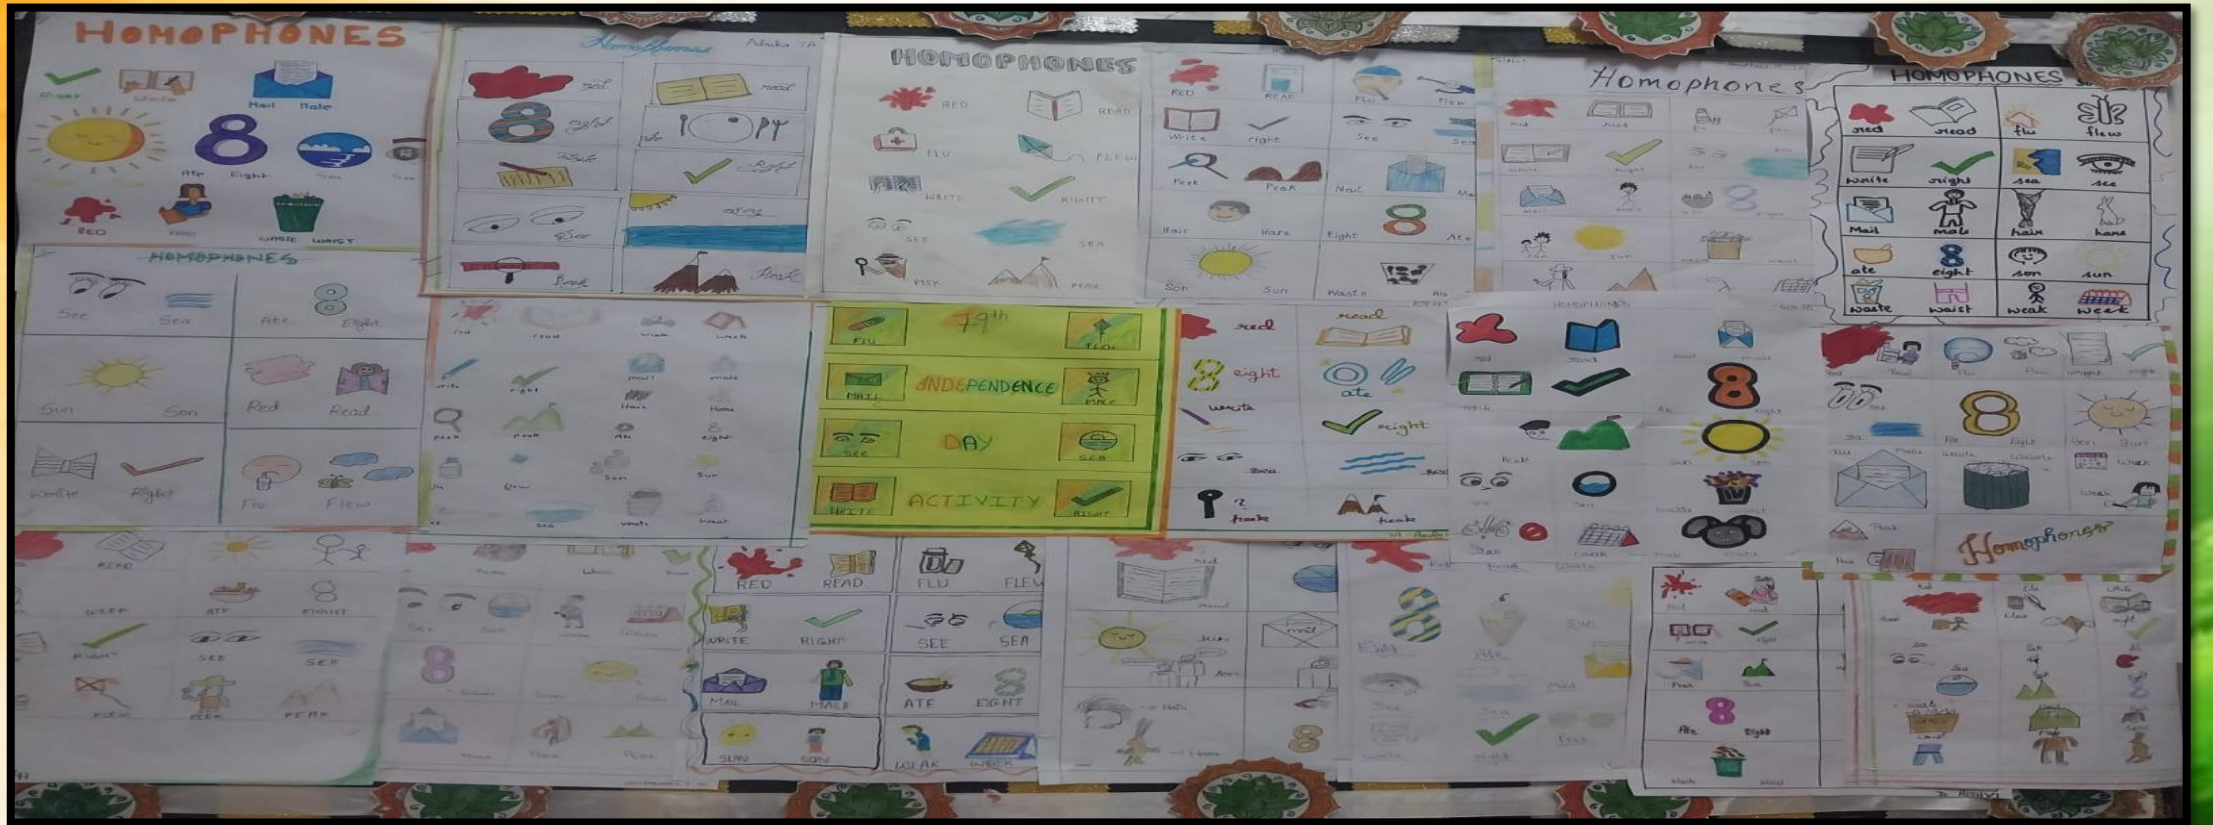

BAGLESS DAY ACTIVITY CLASS-7

Homophones are words that share the same pronunciation but have different meanings.

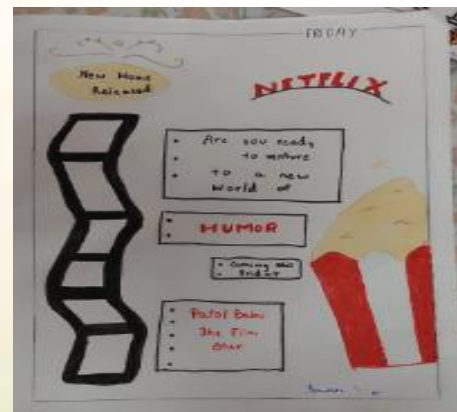

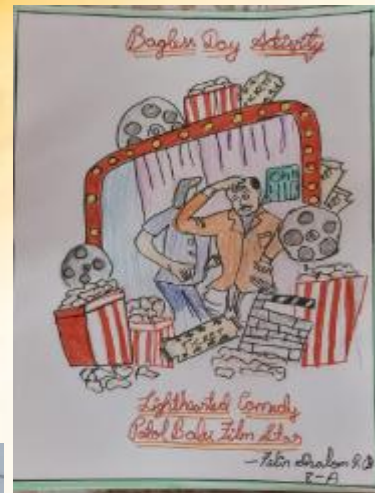

They often create confusion, yet context reveals the intended meaning.

Teaching homophones to students is essential as it enhances vocabulary, sharpens spelling skills, and improves accurate comprehension in reading and writing.

BAGLESS DAY CLASS-8

Class 8 students created an engaging English pamphlet on movies, showcasing their creativity through film topics, genres, reviews, and imaginative insights, all expressed in English.

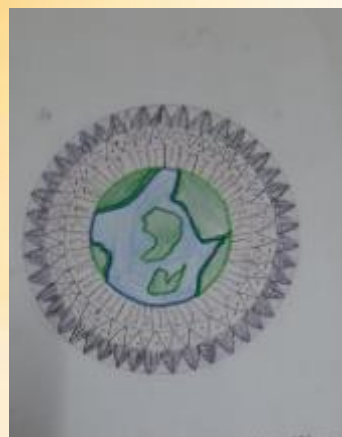

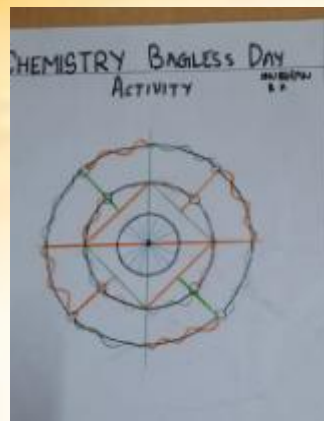

BAGLESS DAY CLASS-8

Our students showcased their creativity by designing ecosystem models on Bagless Day. Using simple materials, they represented various components of nature, including plants, animals, soil, and water. The models highlighted the interdependence of living and non-living things and showed how energy flows within an ecosystem. This hands-on activity not only enhanced their understanding of ecological balance but also encouraged teamwork, imagination, and concern for the environment.

BAGLESS DAY ACTIVITY

Designer Atomic Orbital: Combining science and art to represent the distribution of electrons in atomic orbitals.

GNS BYTES

Happy Independence Day

15th August is a very special day for all Indians the day our country became free in 1947. On this day, India's tricolour flag was hoisted high for the very first time, and the air was filled with joy, pride, and hope for a new beginning.

But this freedom was not easy. It was earned through the courage and sacrifices of countless freedom fighters — leaders like Sardar Vallabhbhai Patel, Subhas Chandra Bose, Bhagat Singh, Rani Laxmibai, Bal Gangadhar Tilak, Lala Lajpat Rai, Bipin Chandra Pal, Dadabhai Naoroji, Gopal Krishna Bokhale, Sarojini Naidu, Dr. Rajendra Prasad, Annie Besant, Veer Savarkar, Mangal Pandey, Alluri Sitarama Raju, Begum Hazrat Mahal, and many others.

They came from different regions, spoke different languages, and followed different paths — but they all had one dream: a free India.

Independence Day is not just about remembering the past — it is about taking responsibility for the future. It reminds us to respect our country, follow the values of honesty, unity, and hard work, and contribute in our own way to make India stronger and better.

Today, schools, offices, and streets are decorated in saffron, white, and green. We sing the National Anthem, wave our flags, and take part in cultural programs to show our love for our country. The spirit of unity in diversity shines bright on this day.

Let us remember — our freedom is a precious gift. We must protect it, respect it, and make India a place where everyone can live with happiness and dignity. So, this Independence Day, let us take a small promise — to be kind, to study hard, to help others, and to make our nation proud in whatever we do.

Jai Hind! Vande Mataram!

Swara M-7G

GNS BYTES

Independence Day is a very special day for all of us. It is celebrated on 15th August every year. On this day, we remember our great leaders and freedom fighters who worked hard and even gave their lives to make our country free. We hoist the national flag, sing patriotic songs, and feel proud of our country. Independence Day teaches us to love and respect our nation and to be good and responsible citizens.

Quit India Movement

The Quit India Movement was a civil disobedience movement launched by the Indian National Congress on August 8, 1942, demanding an immediate end to British rule in India. Led by Mahatma Gandhi, the movement saw widespread participation across the country, with the "Do or Die" call urging Indians to fight for independence or be prepared to die trying.

GNS BYTES

World Elephant Day was first observed on August 12, 2012, launched by Canadian filmmaker Patricia Sims and the Elephant Reintroduction Foundation of Thailand. The initial inspiration came from a documentary called "Return to the Forest," which highlighted the plight of captive Asian elephants being reintroduced to the wild.

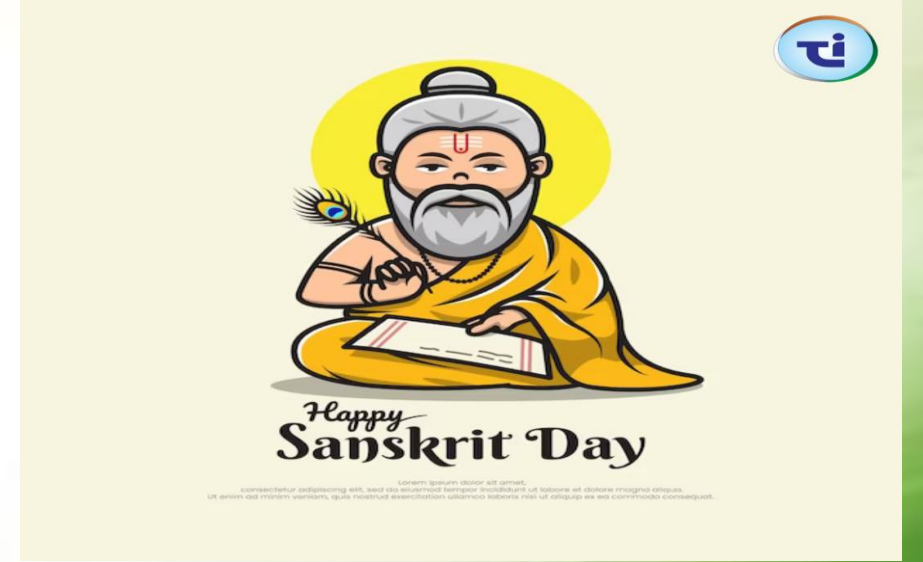

HARI 8G

- Elephants are considered keystone species, meaning their presence is vital to the health and biodiversity of the ecosystems they inhabit. They play a crucial role in:
- Seed dispersal aids in plant growth and diversity.
 - Forest regeneration: Creating clearings in dense forests, promoting natural growth.
 - Water access: Digging for water during dry periods, providing water sources for other animals.
 - Landscape engineering: Maintaining grasslands and supporting diverse habitats

GNS BYTES

Sanskrit Day, also called **Vishva-Sanskrita-Dinam**, is observed annually on **Shravana Purnima** (August) to honor **Sanskrit**, one of the world's oldest and most scientific languages. It is recognized to highlight the language's immense contribution to **Indian culture, philosophy, science, and literature**, as most ancient texts like the Vedas, Upanishads, and epics were composed in Sanskrit. The day aims to create awareness about its significance, encourage its study, and preserve this invaluable heritage for future generations through cultural programs, recitations, and educational activities. **It also reminds us of the timeless wisdom contained in Sanskrit literature. By celebrating this day, efforts are made to keep the language alive in modern society.**

RAKSHA BANDHAN: THE TIMELESS THREAD OF LOVE AND PROTECTION

Raksha Bandhan is a lively festival that celebrates the special bond between brothers and sisters. On this day, sisters tie a beautifully decorated Rakhi—a thread symbolizing love, trust, and protection around their brothers' wrists. The celebrations include prayers, aarti, sweets, and gifts, bringing families together with joy. The festival draws from ancient Indian legends like Draupadi and Lord Krishna and historical moments where queens sent Rakhis to kings for protection.

Over time, Raksha Bandhan has grown beyond just siblings to represent unity and peace among communities. Celebrated worldwide, especially by the Indian diaspora, it connects families across continents and adapts to modern times with e-rakhis and digital greetings. Today, it stands for universal values of care, respect, and harmony, transcending religion and culture.

Some quirky facts about this festival are:

- ❖ Tagore used Rakhi to promote unity between communities
- ❖ Porus refrained from killing Alexander in battle after Alexander's wife tied him a Rakhi.
- ❖ In some regions, Rakhi is tied to trees for nature's protection

Janmashtami is a famous festival of the Hindus. It is also known as Krishna Janmashtami or Gokul Ashtami. It is celebrated on the birth anniversary of Lord Krishna. On this day Lord Krishna was born in the prison of Mathura. Krishna is the Eight Avatar of Lord Vishnu. Lord Krishna was born to Devaki and Vasudeva and brought up by Yashoda and Nanda of Vrindavan. Krishna was born to kill the Evil King Kamsa. The festival generally falls on the Ashtami Tithi of Krishna. Paksha or eighth day of the dark fortnight on the month of Bhadrapada. The festival of Janmashtami is celebrated with great joy and happiness.

World **Photography Day**

World Photography Day is observed every year on August 19th to honor the art, history, and science of photography. The date marks the invention of the daguerreotype in 1837, one of the earliest photographic processes. This day reminds us of photography's power to capture moments, preserve memories, and share stories across generations. From breathtaking landscapes to candid portraits, photographs allow us to see the world through different eyes. In our digital age, photography has become more accessible, inspiring creativity and self-expression in people of all ages. On this occasion, let us appreciate photographers who are amateurs and photographers who are professionals, both, who freeze moments in time, record history, and bring beauty, truth, and emotion to life through the magic of the lens.

PLUTO DEMOTED DAY (August 24, 2006)

From 9th Planet to Dwarf Planet – The Day Pluto Got “Fired”

•**1930** → Discovered by Clyde Tombaugh, crowned as our solar system’s 9th planet.

•**2006** → Astronomers at the **IAU** set 3 rules for being a planet:

- 1 Orbit the Sun ✓
- 2 Be round ✓
- 3 Clear its orbit ✗ (Oops – Pluto shares space with Kuiper Belt neighbours!)

•Verdict: **Reclassified as a Dwarf Planet.**

•Fun Facts:

- Diameter: **2,377 km** (smaller than Earth’s Moon)
- 5 moons – **Charon** is the biggest.
- A Pluto year = **248 Earth years.**
- Surface temp: **-229°C** 🥶

Even today, many still cheer for “Planet Pluto” ❤️

Ganesh Chaturthi(Vinayaka Chaturthi)

Ganesh Chaturthi, also known as Vinayaka Chaturthi or Vinayaka Chavithi, is a major Hindu festival that celebrates the birth of Lord Ganesha, the revered elephant-headed deity. He is worshipped as the God of wisdom, prosperity, good beginnings, and the remover of obstacles.

The main day involves bringing a beautiful Ganesha idol home or to a public pandal. After invoking the deity's presence through rituals, devotees perform elaborate worship, offering **modaks** (sweet dumplings), flowers, and prayers. The atmosphere is filled with devotional songs, chants, and community gatherings, all aimed at seeking Lord Ganesha's blessings for prosperity and success.

Whispers of the Wild

Of all the treasures we receive
There's one whose bounty is all we perceive
From vast seas to high peaks,
And skies with red and gold streaks

Lush fields of golden grass,
Pristine lakes as clear as glass
Snow-capped mountains rise tall and mighty,
Ushering in the rays of dawn, so brightly

The wind whistles through swaying branches,
While the rivers flow swiftly along,
And the waves caress the sandy shore,
With a rhythm that echoes in song

The wild whispers with fading grace,
While the rivers lose their gentle pace
Take heed now before all is lost,
Or face the consequence, the ultimate cost.

Keerthi Arun 8G

GNS BYTES

Mother of a million dreams

In silent lanes where brave hearts tread,
Unsung heroes quietly bled.
With courage wrapped in toil and grace,
They etched their names in times of
embrace.

Mother India, proud and free,
Stands tall like an ancient tree.
She weeps, she laughs, she holds the sky,
A shield of hope when storms fly by.

The tricolour, stitched with dreams,
Floats high on winds and mountains streams.
It rose through fire, through darkest night,
A beacon bold of truth and light.

So let us stand with voices strong,
And write her future in our song.
We pledge our hearts, our strength, our mind
To serve her well, in peace aligned.
Jai Hind!

Harshikaa Suresh Kumar
8G

GNS BYTES

While they created
architectural beauties on our
land,
They robbed us, and not only
our wealth,
But also, our happiness and
voice.
It stirred a weight in our
hearts,
A truth which wouldn't bend to
the thick air of dominance and
fear.
And we rose, with no hands
clenched on weapons.

Swaraj Through Satyagraha

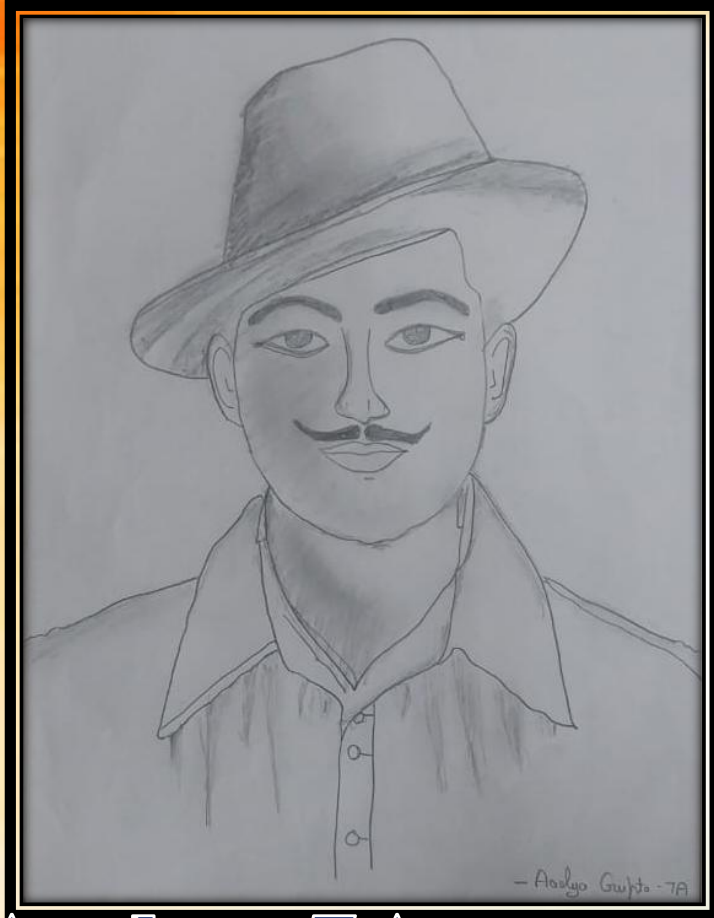

We raised our flag, not theirs, but
ours.
Burned the clothes they forced on
us and spun the charka.
Calloused hands made khadi
strings into liberation garments.
Fists of salt rose against the
empire.
The chains came, but not on our
truth.
Our flame stood unharmed,
unafraid.

And the tricolour filled the soil
and air it belonged to.
Not a single weapon, and yet we
won.
The rivers and land stay a
witness,
How truth with unity created a
revolution for a country.
And the 15th of August stands,
To tell the stories stitched in our
flag.

SANCHIT SINGH

EX- STUDENTS PERSUIT

Everyone deserves a place where they feel at home—where comfort, support, and acceptance exist without judgment. For me, that place was GNS, where I spent ten invaluable years. Like any child stepping into a new environment, I struggled at first to adjust. Yet, step by step, I transformed this institution into my second home. With the guidance of teachers, the support of staff, and the companionship of friends, my journey became smooth, enriching, and memorable.

GNS gave me the freedom to explore and discover myself—whether it was participating in MUNs, inter-school drama, cricket, elections, or poem recitations, where I proudly won a hat trick with *Krishna Ki Chetavni*. Beyond achievements, it gifted me values, resilience, and friendships that continue to shape me.

Having recently passed Grade 12, I am dedicating this year to preparing for JEE. My long-term aspiration is to join the Indian Administrative Services and eventually serve my country as a leader, driving growth and development.
